Aquanaut's

By Tylor

I thought aquanaut's was very cool because we got to learn how to do a lot of cool new ways to swim. We also got to earn a new achievement as a den. Now we all have our pin for aquanauts plus we got a card from Red Cross to carry in our wallets with us. I showed it to all my friends. I asked some of my friends to go swimming at my dad's house with me this summer so I can show them what learned and I can teach them how to do the elementary back stroke. I won't say it to them the way the lady taught us though. Chicken, airplane, rocket! That lady gave me a headache yelling that and my Mom always said before we came in to swim. It was annoying. Me and my friends will be able to race around the pool together or maybe have a swimming contest. We will be able to have some fun and do really cool stuff together. Aquanaut's was the best activity we did together as a den.
